script.R

markus

Thu Jul 2 10:30:55 2015

This is a R-script that demonstrates how to create plots and tables Load the libraries first

```r
library(knitr)
library(ggplot2)
```

Create a markdown table

```r
kable(head(cars))
```

speed	dist
4	2
4	10
7	4
7	22
8	16
9	10

You can also set chunk options like this
